PROCEEDINGS

Western Users of SAS Software

San Francisco '94

Second Annual Conference
October 26 – 28, 1994
Proceedings of the Second Annual Conference

Western Users of SAS® Software

San Francisco, California
October 26 - 28, 1994

Conference Co-Chairs
Marian Oshiro, RAND
Sandy Thurman, Sun Microsystems, Inc.
These Proceedings were prepared by the Western Users of SAS® Software 1994 Conference Committee. SAS Institute has printed them as a record of the Western Users of SAS® Software User Group Conference. Neither SAS Institute nor WUSS can take responsibility for the accuracy or the originality of this material.

## TABLE OF CONTENTS

### WUSS: Who, What and Why?

- vii

### Conference Planners

- ix

### Applications Development

- Tim Berryhill
  - *From Multi-Minute to Sub-Second Response Time with Indexes*  
  - 1

- Berwick Chan and Raymond Wan
  - *Access DB2 Tables Using Keylist Extraction*  
  - 3

- Danielle Davis
  - *A Development Environment for Applications Based on SAS Software*  
  - 9

- Jesse Davis and Helen Spade
  - *Up to 50 X SAS Performance Gains on Large Data Volumes Using Scalable Parallel Computing*  
  - 13

- Michael Harris
  - *Program That Write Programs: Creating Code Generators in SAS*  
  - 19

- Elizabeth Li
  - *Using SAS/AF, SAS/FSP AND SCL to Create a User-friendly Data Entry System*  
  - 25

- John McIntyre and Dan Squillace
  - *Implementing Client/Server Applications in a Heterogenous Platform Environment*  
  - 30

- Randy Pierce
  - *The Benefits of Object-Oriented Application Development Using the SAS System*  
  - 39

- Robin Reese
  - *Tips From a 1st Time FRAME Applications Developer*  
  - 48

- Michael L. Sperling
  - *SAS/DB2 - DO's and DON'Ts*  
  - 52

- Charles Villarrubia, Seth Michelson, Ronald Rhodes, and Edward Leung
  - *ROBOSAS: Laboratory Automation and SAS*  
  - 57

- Louise Weiler, Standish Sibley, and Tim Berryhill
  - *Speedy Data Retrieval and Display in a SAS/AF System: A Case Study*  
  - 64

- Steven A. Wilson
  - *Developing a SAS System Autocall Macro Library as an Effective Toolkit*  
  - 68

- Ai-Yu Wu and Doug Brown
  - *A Computer Assisted New Drug Application (CANDA) Using SAS/AF Frame and SAS/PH-Clinical*  
  - 76
Coder's Corner
Sheree H. Anderson
Your Program Works, But is it Efficient?

David Freese
Using PROC SQL Dictionary Tables to Generate Lists for SAS/AF Extended Tables

Paul Grant
The 'SKIP' Statement

Glenn Itano
A Program for Fixing SAS Transport Files on Personal Computers

Bruce Kayton
Generating Graphics Using DSGI (DATA Step Graphic Interface) Enables Mouse Selection of Graphic Points

Kim J. Kubasek
Data Step Trigonometry for the Universal NO Symbol

Steve R. Schulz
Checking Multiple Values for Inequality

Data Presentation
Arthur L. Carpenter
Visualization of Scientific Data: Specialty Graphs Without Using Annotate

Ali Dogrusoz and Stuart Nisbet
New Developments in SAS Three Dimensional Visualization

Lori D. Griffin
Importing SAS Graphic Files into WordPerfect Version 5.2 (Comparing Several Device Drivers to Determine which Produces the Best Result)

Marvyn M. Lindsey
How to Print SAS/GRAPH Output from MVS on Printers Connected to A LAN Using TCP/IP

Angie C. Wang
Wow, It's Sooo Simple (My First Encounter with PROC REPORT)

Steven A. Wilson
Techniques for Efficiently Accessing and Managing Data

Statistics
J. Richard Earley, Ph.D.
Forecasting College Enrollment Using SAS/ETS Procedures

Zaki Eusufzai
A SAS MACRO for the Ricardian Model of International Trade

George C. J. Fernandez
An Effective Method to Construct Coefficients in CONTRAST and ESTIMATE Statements Used in ANOVA
William Orzech and Joseph Earley
The Use of SAS Regression in Analyzing a Major Sporting Event: The Case of the 1994 Masters Tournament

James D. Ryan, Ph.D.
Using the SAS System to Measure Factors Determining Success by Those Majoring in Theatre at the University Level

Kamal Shoukry
SAS in Taming Classical Violations

Mike Stockstill
Answers to Commonly Asked Statistics Questions

Seid M. Zekavat, Ph.D.
A SAS/ETS Application: Forecasting Iran's Agricultural Self-Sufficiency Program

Student User Presentations
Kersi D. Antia
The Asymmetric Weighting of Service Encounters

Sumon Kumar Bhaumik
Empirical Analysis of Food Demand in Peru: Results and the use of SAS Software

Annaliza Dialino
Using SAS to Determine the Factors that Label College Students as "Computer Hackers" at two Los Angeles Universities

Victor Gastaña
A Reassessment of the Monetary Approach to Exchange Rate Determination: A Multivariate Analysis of Difference-Stationary Time Series

Paul Johnson
A Matrix Approach to Log-Linear Analysis Using SAS/IML

Paul Johnson
Experimental Design and Survey Sampling Methods Using the SAS Macro Facility

JiHong McDermott
Factors Determining the Housing-Price Function Using SAS Procedures

Anne-Marie Mowad
Factors Determining the Fluctuation of the Dow Jones Industrial Index Using SAS Procedures

Carolyn K. Yoder
Examination of the Importance of Root Hairs in Plant Water-Use Studies by Repeated Measures Analysis

Training and User Support
Ginger Carey and Helen Carey
The Lazy Man's Guide to S-A-S

Amy Caron
Elements of Good Programming Style

WHAT is WUSS?

WUSS was chartered by SUGI in 1993. The charter request was accompanied by letters of support from the local and in-house SAS user groups in California, Hawaii and Nevada whom are served by this regional users' group. Other states may apply for membership and we expect some will want to join us.

WUSS was first discussed at a BOF at SUGI 92 in Hawaii. (So, there really is a reason why you keep getting the leftover SUGI 92 clipboards!) A steering committee was established with the stated purpose of organizing a western regional users' group and to that end an organizing meeting was held in December 1992. The planning for WUSS 93 began then with the naming of Claire Castell and Tracy Cermack as the conference co-chairs and the selection of the Loews Santa Monica Beach Hotel as the conference site. In October 1993, 300 SAS users and SAS Institute staff attended the conference and over 40 papers were presented. We judged the conference a roaring success.

The first issue of WUSS New, the tri-annual newsletter, was published and mailed to over 2,000 SAS users on the WUSS mailing list which was compiled during the previous year.

The basic structure of WUSS has been determined and we are putting the finishing touches on our bylaws and plan to distribute them in the next issue of WUSS New. We are all quite proud of the structure we created for WUSS -- a combination of SUGI and several new ideas. A few of the more interesting points are listed here. WUSS is governed by an Executive Committee (WUSS EC) which consists of: 3-6 prior conference chairs who will serve as chair(s) of the EC during the last year of their term; 1-2 current conference chairs who are non-voting members until after their conference; a Secretary and a Liaison to Local and In-House User Groups who are elected by WUSS conference participants; a Newsletter Editor who is appointed by the EC; and a western region SAS Institute representative. All members serve a three year term except the SAS Representative. Only the Newsletter Editor may serve multiple consecutive terms. A Conference Committee (currently five people) is chosen each year to organize and run the conference. Site Selection Committees are chosen to make recommendations regarding potential hotel sites and to negotiate the hotel contract for a specific conference.

YOU can get involved in WUSS! To volunteer for a future WUSS or to participate in any other regional activity, complete a volunteer form or contact any member of the EC or CC (look for the people with the colored ribbons!).

WUSS activities include convening an annual conference, publishing a newsletter, and maintaining a mailing list of members. Possible other activities are limited only by our and your creativity and energy.

Your opinions do count! Let us know what you like or do not like about the conference by completing the User Feedback Form found in the Conference Program.

Plan on WUSS 95: Who, When and Where

WUSS 95 Conference Co-Chairs are Ginger Carey, University of Hawaii Computing Center, and Art Carpenter, California Occidental Consultants.

WUSS 95 will be held September 27-29, 1995 at the Hyatt Regency Long Beach, California.
# WUSS Executive Committee Members

Who are they? Why are they on the EC? What offices do they currently hold?
